PROFESSIONAL EXPERIENCE

Quality In-Charge
December 2024 – Present

Sajnia Sourcing BD Limited | Mirpur I/A, Dhaka

- Oversee quality monitoring across cutting, sewing, and finishing to support compliance with approved buyer standards.
- Conduct inline quality checks and review production defects to identify issues requiring corrective action.
- Analyze recurring defects, identify root causes, and follow up on corrective and preventive actions (CAPA).
- Review garment measurements against approved specifications and buyer requirements.
- Prepare internal final inspection reports and follow up on outstanding quality issues before shipment.
- Coordinate with production and quality teams to address defects, reduce rework, and maintain product quality.
- Maintain defect records and communicate quality issues to relevant production teams.
- Follow up on first-production quality and styling approvals, where applicable.

Sr. G.P.Q
April 2021 – November 2024

Green Life Knit Composite Limited | Tongabari, Ashulia, Savar, Dhaka

- Coordinated pre-production (PP) meetings with buyer QC teams and followed up on agreed quality requirements.
- Monitored compliance with buyer quality standards across cutting, sewing, and finishing.
- Followed up on sample submissions, quality approvals, and buyer-required documentation.
- Coordinated final inspections and followed up on inspection findings and corrective actions.
- Verified approval status of prints, embroidery, shade bands, and other applicable components against approved standards.
- Worked with production and quality teams to resolve defects and maintain product compliance.

Quality Supervisor
January 2019 – March 2021

Join Tex Fashion Limited | Ashulia, Savar, Dhaka

- Supervised quality inspectors and monitored hourly production quality against established standards.
- Coordinated with production teams to identify and resolve sewing and finishing quality issues.
- Inspected garment faults, identified root causes, and followed up on corrective actions with operators and production teams.
- Maintained quality documentation and communicated production and quality issues to management.
- Guided inspectors and supported team training to encourage consistent inspection practices.

- Monitored production processes to help minimize defects, rework, and quality-related issues.

Line Controller **January 2017 – December 2018**

Silver Apparel Ltd | Zirabo, Ashulia, Savar, Dhaka

- Performed inline quality inspections during new-style production against approved standards and specifications.
- Checked sewing operations, thread shades, stitch quality, and workmanship against PP samples, tech packs, and approved requirements.
- Inspected trims and accessories, including buttons, tapes, labels, plackets, sleeves, and collars, for correct attachment and placement.
- Checked HTL labels, pockets, embroidery, and other garment components against approved requirements.
- Identified inline quality issues and communicated recurring defects to production and quality supervisors for corrective action.
- Supported production teams in maintaining workmanship standards and minimizing defects throughout production.
